

THE CITIZEN.

FRIDAY, MAY 10, 1878.

LOCAL MATTERS.

Mr. CHARLES G. MASON and family departed on Thursday's coach for Los Angeles, which place they intend making their future home. Mr. Mason is an old pioneer of the genuine order having lived in this Territory since 1854. He is credited with having personally erected the first adobe building in Florence, and the handiwork still stands for reference. Mr. Mason has not lived in vain financially. Indeed he has been amazingly fortunate in this particular. He has acquired wealth with an aggressive hand until he figures up in the hundred thousands, besides ranches and other valuable property. His is an example worthy of emulation, judging from a gold basis. Mr. Mason is naturally large hearted, and quite liberal with his money, and if we did not believe he had become so thoroughly insured and wedded to this town and country to be contented in any other, we would express reluctance at his departure, but we consider his absence only in the light of a passer, and fully anticipate his return in the fall. To say the least we will miss him from our midst, and sincerely wish him every joy and blessing in his new home.

On Monday last, Mr. Joseph Collingwood and family permanently established themselves in their new home. It is quite palatial in both its external and internal appointments, being lavishly furnished throughout. If we didn't know the stability of the family we might imagine that "so much style" would elevate them above the recognition of their former friends and associates. May they live long to enjoy their possessions in the only home they wish them.

It is respectfully suggested to the people of Florence that before getting warmed up on the fall election, they prepare for and have a nice and proper celebration of July 4. A very creditable one can be made for a very small sum of money, and it is not much if any too early to look out for an orator and give him time to prepare a suitable address.

To-day will close the term of the public schools in Florence. For eight and a half consecutive months the schools have been in constant session and have been well and regularly attended. The weather is now getting too warm for the little ones to study and both teachers and scholars will enjoy a vacation. We believe the schools will reopen about September 1.

Mr. C. W. CULVER has transferred his saloon to Mr. John Brown of Tucson. Mr. B. has already assumed control. No noticeable feature is perceptible in the change, the saloon retains its former respect and good order. Mr. Culver is the owner of several good mines and must needs give them his personal attention.

FLORENCE is assuming numerous city airs, and among other things we have a new milk wagon under the management of Mr. L. Remy, who delivers pure fresh milk every morning and evening right at the door. Fresh milk twice a day is good enough for Florence.

MILLER of Stonewall Jackson notoriety, arrived from San Francisco the first of this week and left immediately for the McMillen camp, Globe District. We understand he intends pushing work on some property of which he is part or sole owner.

J. COLLINGWOOD & Co. received this week, merchandise as follows: By Contra-train, 15,500; Sycamore, 12,695; A. Dague, 12,500; Guindani & Co., 2000 feet of lumber on consignment from Zecken-dorf & Co. of Tucson.

OUR esteemed friend Judge Anderson, left on Thursday's stage for Los Angeles. His object is business—always business. He intends to visit San Francisco before returning home. We wish him a pleasant sojourn and a safe return.

MR. M. CALISHER returned on Monday from Los Angeles with his family consisting of his wife and seven children. This is a pleasant acquisition to our town and we hope their sojourn with us may be prolonged and agreeable.

J. GUINDANI & Co. have just completed some neat improvements in the rear of their store in the way of a large corral, shed and store-room. This gives them abundant space for the large invoices of new goods they are constantly receiving.

LORD & WILLIAMS' train came in Tuesday afternoon with about 7,000 feet of lumber for the 7th mill and a lot of merchandise for Florence. After leaving the lumber train will load with concentrations from the King and proceed to Yuma.

BUCKALEW'S train came in on Tuesday from Prescott with about 15,000 feet of lumber for the Silver King mill. The lumber ought to be on the ground by this time and the new machinery will soon be in operation.

MESSRS. COLVIG & PERRY are in town with a complete photographic outfit. They have their tent up directly west of the O. K. Corral and are well prepared to take views and photos in the most artistic style.

FIVE fine boys have been born in Florence to American mothers during the last six weeks. Who says Florence isn't growing? The balance of power will soon be with Pinal.

J. P. CLEM of THE CITIZEN left yesterday morning for a brief visit to Prescott. He will also spend a day or two in the verdant vale of the Salt River.

HON. G. H. O'RY returned Wednesday from an extended trip through the Globe District.

THE auction of the effects of the late John R. Upton was well attended last Saturday and the goods sold well.

MR. J. J. DEVINE's orchard is in a most thrifty condition and looks nice. The same may be said of his twins.

SPLENDID gold improved Howard Sten-wensworth for \$100 at Uncle Harris', San Francisco. Send for one.

BEAUTIFUL moonlight nights now and the weather lovely after sunset. The days are a "leisure" warm.

SALT! SALT! at Lord & Williams', Tucson. See their new advertisement.

Mr. G. BONERAND on Main street, has the faculty of manufacturing all kind of confectioneries equal to any in the country. If you want real good, fresh, "way up" candies give him a call.

MR. AND MRS. R. W. REAGAN and a Miss Benson came in on last evening's stage from San Francisco.

VEGETABLES are cheap and plenty—green peas eight cents per pound.

Items from Yuma Sentinel.
The Mohave arrived on Saturday with thirty tons rich silver ore from Mineral Park, shipped by Breon & Spear; 23 tons lead ore from the Arkansas mine, of Castle Dome, and \$33,000 in silver bars from the Signal and McCrackin.

F. Amabasca left Sunday with 30,000 for Florence and Globe. Gonzalez took 15,000 for Calisher, of Florence. Tom Childs loaded nearly 4000 for Adams-ville. George Sanborn was loaded on the 29, with 13,000 for A. Goldman, and 5500 for Irvine, Morgan and others, of Phenix. Elmo Perez was loaded on the 30, with 12,250 for Guindani & Co., of Florence. Howe left Thursday with 1500 for Guindani, and 1500 for Webster, of Globe. Appel leaves to-day with 37,000 for Tully, Ochoa & Co., of Tucson; a nice assortment of goods.

Our new judge, Hon. Chas. Silent, arrived here Wednesday and went on to Prescott. He makes a favorable first impression and will probably fill the bill.

Hon. C. A. Tweed, late Associate Justice of Arizona's Supreme Court, went up the river on the Mohave, to reside at Mineral Park. The Judge is understood to have been retained as counsel for the McCrackin Company, at a salary far better than that of an Associate Justice.

Fifteen hundred pounds of Wana Whata ore came in on Thursday.

The Chemistry of Alkali Soils.
Under this heading a late number of the San Francisco Bulletin says: Professor Hilgard, of the Agricultural Department of the University of California, is engaged in making a chemical analysis of the soils of the State. Alkali soils are receiving most consideration just at present. The results of his investigations, so far as they have gone, are somewhat astonishing and exceedingly gratifying.

They promise to do a world of good, in an agricultural sense, to the State. They demonstrate that the popular idea concerning alkali lands is at fault; that instead of being valueless, they in reality carry a large proportion of the richest fertilizing ingredients. For instance: The alkali soils in the vicinity of Stockton are found on alluvial to contain large quantities of phosphates. Soil from the alkali plains of Merced contains a large percentage of nitre, an article which is shipped in large quantities from Chili and Peru. The alkali soil in the vicinity of Anaheim is again rich in potash. With the employment of gypsum as a neutralizer of the alkalies, Professor Hilgard thinks these soils can be made the most productive in the State.

The Arizona valleys have not a large proportion of alkali soil, but all have some, and it may become the most valuable in the Territory if Professor Hilgard is good authority, and he ought to be for he is professor of agriculture in the California University.

Globe City Items.
(From the Silver Belt.)
The McCormick mill near Globe City, is proving to be one of the rich-est in the district.

Bailey & Van Wagenen, are putting up a large store-house 20x75. Dr. Vail is building a fine drug store, and Mr. James Hamilton is about completing a handsome saloon.

At the store of L. J. Webster, in Globe City, can be seen two handsome silver bricks from the Miami mill, weighing respectively eighty-five and eighty-eight pounds apiece. The mill is doing exceedingly well under the management of Prof. Jacobs.

Mr. E. P. Ferry, who is visiting the Territory with Inspector Watkins, has visited Globe City. He has written to his brother, Senator Ferry, who is chairman of the committee on Postal affairs, recommending a mail route from Silver City, N. M., to Globe via Pueblo Viejo and Camp Thomas.

The heavy weights on the editorial staff unbuckled their silver belts and devoured all of Mrs. Brannan's turkeys on May day.

Progress of Arizona.
The onward progress of Arizona to increased population, wealth and internal development, meets with no untoward interference. The Southern Pacific Railroad begins to feel the impetus of the hot breath of prosperity from across the Colorado. The result of this year's business will show a marked improvement over that of the previous one, with excellent prospect of steady continuance in well doing.

The population of Arizona presents a rapid and most satisfying increase.—Mining Scientific Press.

Horses for the Sixth.
A Board of officers to consist of Captains T. C. Tupper, J. H. Lord, E. C. Hentig, is ordered to assemble at Los Angeles, Cal., on Friday the 10th instant, or as soon thereafter as practicable, for the examination and purchase of one hundred and fifty-five (155) horses for the Sixth Cavalry.

Captain Lord will also perform the duties of disbursing officer.
